

AROoba ALI

Computer Science Undergraduate | Aspiring Software & Data Analysis Developer

0342 4300079 | aroobaali510@gmail.com | <https://www.linkedin.com/in/arooba-ali-125381391/>

OBJECTIVE

Computer science undergraduate seeking a challenging position to apply strong foundations in C, C++, Python, Object-Oriented Programming, Data Structures, and SQL databases. Skilled in data analysis and visualization using NumPy, Pandas, Seaborn and Matplotlib, with practical exposure to information security through academic projects such as secure message handling and cipher systems. Eager to grow expertise in software development and machine learning while contributing to real-world projects.

SKILLS

C / C++ Programming	Object-Oriented Programming	Data Structures & Algorithms
Python	SQL & Database Design	Data Analysis (NumPy, Pandas)
Data Visualization (Seaborn, Matplotlib)	Information Security Fundamentals	AI & Machine Learning Basics

EDUCATION

BS Information Technology — CGPA 3.68 / 4.00 University of the Punjab	2023 – 2027
Intermediate in Computer Science (ICS) — 909 / 1100 Punjab College	2021 – 2023

PROJECTS

AttendEase — Student Attendance Tracker (Android App)

Tech Stack: Java, Android Studio, Firebase, XML

- Built an Android application to digitize and simplify student attendance management for classroom use.
- Enabled real-time attendance marking, subject management and record storage using Firebase Realtime Database.
- Implemented secure authentication to protect student and attendance data.

Relational Database System

Tech Stack: SQL

- Designed a relational database with structured tables and optimized queries for efficient data storage, management and retrieval.

Caesar Cipher — Information Security

Tech Stack: Python / C++

- Developed an encryption and decryption system using the Caesar Cipher technique to demonstrate core cryptography concepts.
- Implemented character-shifting logic to convert plaintext into ciphertext and back.
- Recorded a video demonstration of the working project.

All projects are documented and shared on LinkedIn.
